

Wanted: Hackers with a curiosity about the microscopic world!

2018 Microscope Hack-a-thon

Help create technology, presentation material, art, experiments, and multimedia to teach, share, and experience the amazing world of “Life in a Drop of Water”.

We provide the microscopes and biology; you provide the hacking!

When:

Saturday, April 21st
10am – 6pm

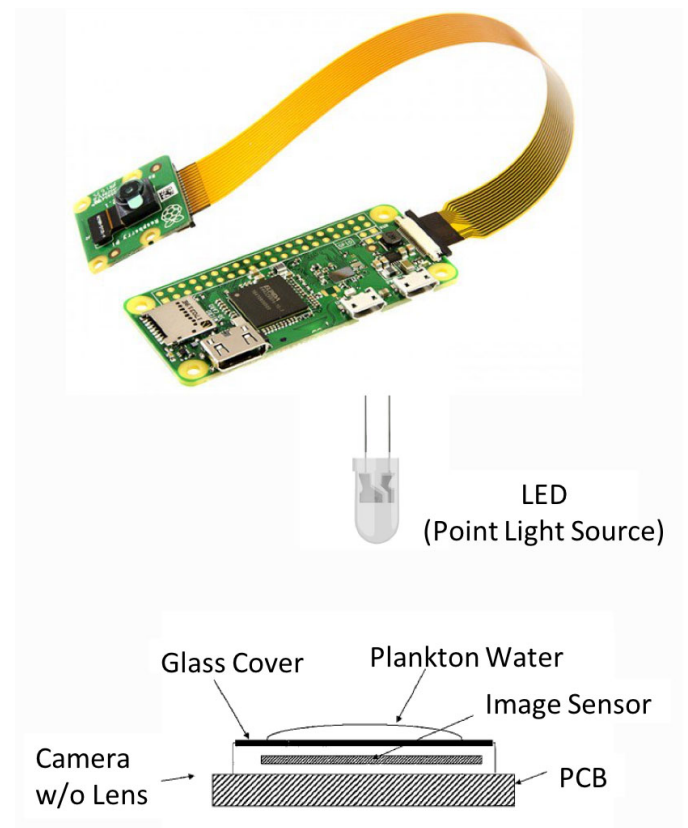

Where:

Counter Culture Labs
4799 Shattuck Ave
Oakland, CA 94609

What:

Each team will develop their own innovative method to explore and interact with microscopic life. Teams can choose from provided microscope platforms or build their own at the event.

Possible microscope platforms include:
Shadow Microscope
(lensless camera and Raspberry Pi)
